EAGLE II DISINFECTANT DELIVERY SYSTEM

Electric Mister by Pressure Pro

Product Description

This Dual Purpose machine brings unsurpassed value and versatility into your workplace. As a pressure washer, it delivers 1,200 psi @ 2 gpm. As a “mister” for dispensing disinfection/sanitization products, it drops down to 300-900 psi @ .11 - .24 gpm. It is self-priming and can be fed from a static supply tank or via city water pressure.

Corrosion resistant aluminum frame and ergonomic design allow for excellent portability.

Key Features

Ergonomic Design for easy portability, with ideal handle height and balance point

Industrial motor and Cat Pump plugs into standard 115v outlet, includes GFCI with 35' cord and plug

Misting nozzle allows for easy and consistent application of disinfectant to various surfaces

Adjustable flow valve to easily switch between pressure washer mode and misting mode

Dash panel with integrated gun, wand, and nozzle storage allows quick, easy access to all accessories

Easy access to inlet and outlet fittings for simple hookup

High-grade corrosion resistant aluminum frame ideal for use in cleaning in a corrosive environment or for applying sanitizer

Airless tires never go flat, so your equipment is ready to work when you are

Optional gun kit available includes splitter, extra hose and misting gun assembly for increased application efficiency

Works best with:
