# CORDLESS ELECTROSTATIC HANDHELD SPRAYER

Electra Max 360 by John-Henry Enterprises

## Product Description

The **Electra Max 360** electrostatic hand-held sprayer comes with a 129W motor, a built-in negative ion generator, 1.8L bottle, and a 20V rechargeable battery. It is lightweight, portable, and can create very fine mist which is perfect for dispensing disinfectants / sanitizers in homes, public areas, hospitals, schools, etc. Electra Max 360 is an economical and practical way to apply water based sanitizing agents, such as Vital Oxide.

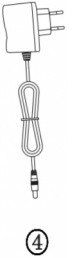

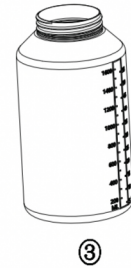

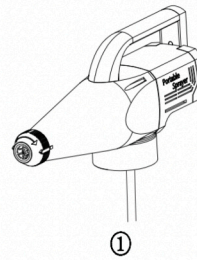

At the core of this electrostatic hand-held sprayer is a specially designed anion generator that continuously produces a high concentration of negatively charged anions. As most airborne particles and bacteria are positively charged, the high concentration of anions created neutralizes positively charged bacteria and particles, which in turn causes the neutralized particles to increase their weight, thereby settling to the ground after neutralization. When combined with Vital Oxide, the Electra Max 360 electrostatic battery sprayer is a truly effective virus and bacteria killing machine.

## Key Features

- SIZE: 13 x 3.2 x 6 inches (326 x 81 x 150mm)
- Voltage: 20V (DC)
- Motor Power: 129W
- Current: 6 amps
- Effective range: 9 ½ ft. (3 meters)
- Atomized volume: 2.37 oz/min (70ml/min)
- Charger input: AC 100-240V 50hz/60hz
- Charging time: 3.5~4 hours
- Operating time: 25~30 minutes
- Bottle size: 1.8 liters
- Noise level: ~75DB
- NET weight: 2.87 lbs. (1.3KG)

1. Electra Max 360 Sprayer  
2. Battery Pack

3. 1.8L Bottle  
4. Charger
