

## AB-XTREME

### Aluminum Brightener And Restorer

AB-XTREME, extremely concentrated, heavy duty Aluminum Cleaner and Brightener, cleans and brightens unpainted aluminum trailers, trucks, and buses quickly, effectively, and, when used as directed, streak free. It is particularly recommended for removing the powdery sea air residues from ISO containers. AB-XTREME is also recommended for brightening stainless steel tanks prior to alkaline washing in a two step process.

AB-XTREME removes, dirt, road film, diesel smoke, oil field soils, and dulling metallic films and leaves surfaces clean with a soft “satiny” finish. Trailers, trucks, buses, and tanks, AB-XTREME gets them extremely clean.

AB-XTREME may be diluted with up to 50 parts water and perform beautifully in continual wash applications. For light road film removal, dilute with 10 parts water. For heavy or smoke soil removal, dilute with 3 parts water. Always apply AB-XTREME solutions from the bottom to the top of whatever surface is being cleaned so as to eliminate streaking. Also execute the first rinse from bottom to top, and after that, as desired.

### SPECIFICATIONS FOR AB-XTREME

Appearance.....	Clear, colorless liquid
Odor.....	Pungent, acidic
pH at 1/10 (With water).....	<2
Specific Gravity.....	1.11
Flashpoint.....	None
Dilution.....	Up to 150 :1 with water
Foam.....	High
Hardwater Tolerance.....	Excellent
Rinsability.....	Excellent
Biodegradable.....	Yes (all surfactants)
Storage Stability.....	Excellent, 1 year under normal conditions
Freeze-Thaw Stability.....	Will freeze-usable after thawing with no change in performance.
