

## APEX

### Non Butyl Heavy Duty Caustic Cleaner

APEX is an extra strong blend of detergents, alkalies, and chelates designed for complete and effortless removal of fatty and proteinaceous soils and blood from floors, walls, and equipment in food processing plants, food processing and handling areas, and kitchens. The high alkalinity of APEX saponifies fats and grease while the special, biodegradable surfactants remove, suspend, and flush all soils from surfaces leaving them clean and sanitary.

APEX is phosphate free and contains no glycol ether solvents. It may be used with a 4-way proportioning blend station for maximum versatility. USDA Authorization: A-1. APEX tops them all.

Apex may be diluted up with up to 64 parts water, depending on usage. For Heavy Duty cleaning, dilute with 5-10 parts water. For Medium Duty cleaning, dilute with up to 16 parts water. For Light Duty cleaning, dilute with up to 64 parts water.

### SPECIFICATIONS FOR APEX

Appearance.....	Clear, purple liquid
pH.....	13±.5
Specific Gravity.....	1.05
Percent Active.....	30-35%
Flash Point.....	None
Dilution.....	Up to 64:1 with water
Foam.....	Low-Moderate
Hardwater Tolerance.....	Excellent
Ammonia.....	None
Butyl.....	None
Phosphate.....	None
Storage Stability.....	Excellent, indefinite
USDA Registered?.....	Yes A-1
