

# FAST BREAK

Aqueous Degreaser

## Product Description

**Fast Break** is formulated to remove road film, exhaust deposits, light oils, and bug residues from the painted surfaces of trucks, buses, and heavy equipment. This product works in hot or cold water and rinses freely leaving no soap scum. The materials used have been selected for their synergy in expediting the desired "split" between oil and water into two phases. Additionally, a built-in corrosion inhibitor dramatically reduces oil/water separation time, and enhances soil and solids settling. This unique formulation reduces oil emulsification and softens water to enhance cleaning power. Fast Break will not harm pressure washing equipment, and contains no phosphates, dyes, perfumes, or thickeners. All surfactants are biodegradable.

## Uses & Directions

Use Fast-Break to clean trucks, buses, wheels, heavy equipment, oil field equipment, aircraft, trains, specially where waste water recycling is required. For light road film, apply Fast Break at a 25 to 1 dilution ratio. For heavy road film (seldom washed vehicles), apply at 10 to 1. For oil soils, apply at 4 to 1. Using a downstream injector or under full pressure from a pressure washer, apply Fast Break from bottom to top, and allow to stand for at least 30 seconds before rinsing. Rinse first from bottom to top, and then from top to bottom. Hot water is desirable but not required. Wash areas small enough so as not to allow the product to dry before rinsing.

## Health Hazard Summary

Causes severe irritation and possibly burns to eyes. Causes moderate to severe irritation and possibly burns to skin. Mists and spray can irritate eyes, nose, throat, and respiratory system. May be harmful if swallowed.

## Specifications

Appearance ..... Clear, yellow liquid  
pH ..... 13 ±.5  
Specific Gravity ..... 1.03  
Percent Active ..... 100%  
Flash Point ..... None  
Dilution..... Up to 40:1 with water  
Foam ..... Low-Moderate  
Hardwater Tolerance ..... Excellent  
Ammonia ..... None  
Butyl ..... None  
Phosphate ..... None  
Storage Stability ..... Excellent, indefinite  
USDA Registered?..... No

## Package & Handling

55 gallon drum JBC4097  
6 gallon pail JBC4098
