

POTS AND PANS

Dish Detergent

POTS AND PANS Premium Dishwashing Detergent is a concentrated, heavy duty, high foaming, hard working detergent for manual cleaning of dishes, silverware, serving dishes, glassware, and, of course, pots and pans. POTS AND PANS is a blend of highly effective, biodegradable synthetic detergents and a non-phosphorus chelate that penetrates, softens, and removes dried-on and burnt-on food soils and rinses freely and spot free. POTS AND PANS is mild to hands, concentrated and economical. So, "get out of that kitchen" - use POTS AND PANS.

Place appropriate amount (see recommendations below) of POTS AND PANS in sink and fill with a strong stream of water to create suds. Soak or scrub to achieve desired results.

For dishes, silverware, and glasses:

Use 1/2 to 3 ounces per gallon of water for light to heavily soiled dishes.

For heavily-soiled pots and pans:

Add 3/4 to 4 ounces per gallon of water.

SPECIFICATIONS FOR POTS AND PANS

Appearance.....	Clear, green liquid
pH.....	8.5 ±.5
Specific Gravity.....	1.02
Flash Point.....	None
Dilution.....	Up to 256:1 with water
Foam.....	Excellent
