

T-N-T

Premium Truck and Trailer Wash

Product Description

T-N-T Truck & Trailer Wash was developed primarily for use in pressure cleaning, both as a presoak and in the main wash. The complex detergent system in T-N-T quickly penetrates, wets, and removes road film, exhaust deposits, road salts, soap deposits and bug residues from trucks, trailers, chassis, buses, cars, heavy machinery, oil field equipment, wheels, tires, etc. This product works in hard or soft, hot or cold water and rinses freely, leaving no film or scum. T-N-T Truck & Trailer Wash contains no solvents or phosphates and is biodegradable.

Uses & Directions

For light road film, apply T-N-T at a 25 to 1 dilution ratio. For heavy road film (seldom washed vehicles), apply at 10 to 1. For oil soils, apply at 4 to 1. Using a downstream injector or under full pressure from a pressure washer, apply T-N-T from bottom to top, and allow to stand for at least 30 seconds before rinsing. Rinse first from bottom to top, and then from top to bottom. Hot water is desirable but not required. Wash areas small enough so as not to allow the product to dry before rinsing.

Health Hazard Summary

Causes moderate to severe irritation to eyes. Prolonged exposure can cause moderate to severe irritation to skin. Mists and spray can irritate eyes, nose, throat, and respiratory system.

Contains

Appearance clear, amber liquid
pH 13.2±.5
Specific Gravity 1.00
Flash Point None
Dilution..... Up to 25:1 with water
Foam Moderate
Hardwater Tolerance..... Excellent
Ammonia..... None
Butyl None
Phosphate None
Storage Stability..... Excellent*
USDA Registered ?..... No

*indefinite

Package & Handling

55 gallon drum JBC4185
