WASH-N-WAX

Automotive Beading Wax

Product Description

WASH-N-WAX is a foaming bucket wash concentrate with superior water beading properties that leaves a durable, wax-like finish. Highly economical - Use only 4 ounces per gallon of water for superior wax-like protection in wash - rinse water beads off vehicle instead of sitting on the surface.

Safe on all vehicle surfaces. No Prop65 components. DEA and NPE free.

Uses & Directions

Use WASH-N-WAX wherever a better shine or a protectant is desired on cars, trucks, buses, tractors, trailers, heavy equipment, and even on aircraft.

In Tunnel Car Washes, pre-mix WASH-N-WAX at an 32:1 dilution ratio with water in a dedicated container, then apply 8 ounces of solution per car. For Drive-Thru or Gantry type Truck Washes, use the same dilution as for cars, but apply as needed for the larger vehicles. For Manual Spray, use a proportioning device capable of an 32:1 dilution as water passes through it, and lightly mist the vehicle after it has been thoroughly washed. Does not need to be neutralized due to use of strong acids or bases.

Health Hazard Summary

Causes irritation to eyes. Prolonged exposure may irritate skin. Mists or sprays may irritate eyes, nose, and throat.

Specifications

Appearance.....	Clear, blue liquid
pH.....	7 ± .5
Specific Gravity.....	1.00
Percent Active.....	20-40%
Flash Point.....	None
Dilution with Water	Up to 32:1
Foam.....	High
Hardwater Tolerance.....	Excellent
Ammonia.....	None
Butyl.....	None
Diethanolamine.....	None
NPE.....	None
Phosphate.....	None
Storage Stability.....	Excellent, One Year

Package & Handling

55 gallon drum	JCRE5962
6 gallon pail	JCRE5341
