

WINK

Hard Surface and Glass Cleaner

WINK is a transparent, light-bodied liquid detergent with a amber color. It is ideal for use on a wide variety of hard surfaces as well as glass surfaces such as doors, windows, display cases, windshields, etc. It quickly cuts grease and oil films and leaves the surface like a sparkling mirror. Because of its special formulation, it wipes off absolutely clean and streak-free.

WINK can be applied with a trigger spray bottle or with a clean cloth. Normal usage requires the product to be used as is, since the introduction of hard water could cause spotting in some areas. If it is to be diluted, however, use 1 part WINK to 2 parts water. Spread the solution evenly over the area to be cleaned. Wipe with a clean, lint-free dry cloth or paper towel. Also safe for use on plastic windows, such as Lexan® or Plexiglass®.

SPECIFICATIONS FOR WINK

Color.....	Amber
pH.....	9.9-10.1
Specific Gravity.....	0.969 - 0.973
Flashpoint.....	>200° F
